

Counting items, adding items to previous count lists (QuickScale Plus edition only)

Click on the count button on the toolbar and click on each item you need to count.

To start a new list, click on the count button again and click on the new items to count.

By right clicking on a count on the drawing you can:

- Change the colour of the point

- Change the line weight of the point

- Add points to an existing list
- Delete a list
- Hide a list
