

Check for updates

Look at the top of your QuickScale screen at the version you currently have.

Look at our website for the latest version available. To update, copy and paste your keycode into the orange stripe.

To find your keycode, click View/About in QuickScale.

A screenshot of a registration form for QuickScale. The background is light blue. At the top, it says "Registered Users Get The Latest QuickScale!" in a large, dark font. Below that, it says "VERSION: 2.5.4.438". There is a small asterisk and the text "* Required Field" to the left of the main instruction. The main instruction is "PLEASE TYPE OR PASTE YOUR QUICKSCALE KEYCODE (INCLUDING HYPHENS)*". Below this is a long, solid orange horizontal bar representing the input field. Underneath the orange bar is a reCAPTCHA widget with a checkbox labeled "I'm not a robot" and the reCAPTCHA logo. At the bottom center of the form is a red "Submit" button.

Kind regards

The QuickScale Team
